Today we have some exciting news to share with you:

The Time Timer WASH is coming soon!

We are excited to share our newest product with you. This timer is going to revolutionize handwashing time in classrooms and homes.

The Time Timer WASH visual timer for handwashing displays a 30-second LCD disk, reinforcing World Health Organization (WHO) recommendations.

Broken into three stages, the disk disappears as time elapses, displaying icons for soap, scrubbing, and rinsing. Touchless IR operation and water resistant for complete sanitation and music and sound are optional. It can suction cup to wall or counter, stand alone, or hang with screw on wall.
